EDUCATION

SRM Institute of Science and Technology, KTR

B.Tech, Computer Science Engineering with specialization in IoT — Sep 2021 – May 2025

- GPA: 9.47/10

EXPERIENCE

Deloitte USI — Hyderabad

Cybersecurity Analyst — Sept 2025 - present

- Performed identity governance activities across SailPoint ISC, Okta, and Microsoft Entra ID, including access certifications and entitlement reviews.
- Defined review scope and approval workflows with business and IT owners; supported SOX, SOC 1/SOC 2, and DFS audit evidence.
- Supported application onboarding and governance configuration (roles, entitlements, access profiles, SoD) and executed AD/JDBC/hybrid recertifications.

Centre for Artificial Intelligence & Robotics, DRDO — Bangalore

Software Engineer Trainee — Oct 2024 - Dec 2024

- Integrated data flows across Neo4j, PostgreSQL, and HBase using Apache NiFi, enhancing software configuration management and improving efficiency by 35%.
- Implemented Horizontal Pod Autoscaling (HPA) for Kubernetes clusters using GPU metrics with Prometheus, optimizing resource usage by 40%.
- Analyzed vessel density across ports within India's EEZ using AIS data.

PROJECTS

DDoSWatch - *SRM Institute of Science and Technology, Kattankulathur*

Jan 2025 - Mar 2025

- Developed an AI-driven DDoS protection system for cloud environments combining AWS cloud tools and Machine Learning.
- Engineered real-time detection and mitigation pipelines with scalable automation, validated through IEEE publication.

FuzzAIoT - *SRM Institute of Science and Technology, Kattankulathur*

Jul 2024 - Oct 2024

- Designed a security framework for detecting and mitigating DDoS attacks in IoT networks using Dynamic Fuzz Testing and Graph Neural Networks (GNNs).
- Conducted NS3 simulations to generate realistic traffic data for training GNN models, improving detection accuracy.

TECHNICAL SKILLS

Programming Languages: Python, C++, Java, SQL

AI/ML Frameworks: TensorFlow, PyTorch, Keras, LangChain, Scikit-learn, PySpark

Databases & Backend: PostgreSQL, MySQL, Apache Kafka

IoT & Cloud: Sensors, Protocols, IoT Security, 5G, AWS, Docker, Kubernetes, Terraform

Tools & Platforms: SailPoint ISC, Okta, Microsoft Entra ID, Postman, Git, Apache NiFi, GitHub, Alteryx

HONORS AND AWARDS

- **OCI Generative AI Certified Professional**, June 2024
- **Best Product Design** for Sign Language App, HackTrix Hackathon, IEEE SRM SB, Mar 2024
- **3rd Prize for Smart Dustbin**, IoT Expo'23, ASEAN-India Science, Technology & Innovation Cooperation, Mar 2023
- **1st Place for IoT Safety Solution**, Safe-a-Thon 2.0, SaFest 2.0, VIT Vellore, Dec 2021.

PUBLICATIONS

- ***DDoS Protection System for Cloud using AWS and Machine Learning (IEEE Xplore)***
  AI-based DDoS detection and mitigation leveraging AWS Auto Scaling and Isolation Forests for robust cloud security.
- ***AI4BCancer: Breast Cancer Classification using AutoML - TPOT with PCA (IEEE Xplore)***
  Utilizes AutoML and PCA for improved breast cancer classification and early detection.
- ***AI-Driven Dynamic Fuzz Testing for IoT Security (Springer)***
  Combines Dynamic Fuzz Testing and GNNs to detect and mitigate DDoS attacks, ensuring real-time IoT security.
